

Innovator. Disruptor. Trailblazer. There's more to become.

You've got the drive. The ideas. Now it's time to put it all to use — while learning from industry-leading experts and taking on new challenges. We've recently launched our Foundation and Higher Apprenticeship opportunities in our Operations and Technology business areas. Here's everything you need to know about them.

Operations & Technology Foundation Apprenticeships

Location: Northampton, Manchester, Cheshire, London

Assessment centre: 24th July – 8th August 2019

Start date: 16th September 2019

Program length: 2 years

Operations & Technology Higher Apprenticeships

Location: Glasgow, Northampton, Cheshire & London, Manchester

Assessment centre: 8th May – 6th June 2019

Start date: 29th July 2019

Program length: 4 years

What happens in Operations?

Every minute of every day, Barclays is a hive of activity — from a couple getting their first mortgage to a business receiving a crucial loan. Operations are behind it all, using data to ensure each transaction, payment and trade is processed effortlessly.

What happens in Technology?

Our Technology teams keep us ahead of the curve — developing innovative technologies that shake up our industry.

What is an Apprenticeship?

Apprenticeships at Barclays enable you to take on a fulfilling role, earn a salary, and gain new qualification — all with our support behind you.

Why should I become an Apprentice?

Whichever team you're interested in, you'll be part of a structured development program — one that gives you everything you need to start building a rewarding career at a world-class bank. You'll benefit from focused on-the-job training, challenging work, a strong team-focused working culture and the opportunity to drive and take ownership of your career. All of this coupled with a Foundation Apprentice Qualification or Higher Apprentice Degree. Once your Apprenticeship's complete, you'll stay part of the team to develop your career further.

Am I eligible?

For [UK Foundation Apprenticeships](#), minimum of 5 predicted or achieved GCSE's 9-5 (or equivalent), including Maths and English is required, but we will help support you in growing your skills whilst on programme

- [England Higher Apprenticeships in Technology](#), minimum of 3 A-Levels (or equivalent) at BCC,
- [Scotland Higher Apprenticeships in Technology](#), minimum of 4 Highers (or equivalent) Grade B, including Maths or Computing
- [England Higher Apprenticeships in Operations](#), minimum of 3 A-Levels (or equivalent) ranging from BBB-AAA
- [Scotland Higher Apprenticeships in Operations](#), minimum of 4 Highers (or equivalent) Grade B, including Maths or Computing
